

ST PETER'S SCHOOL MONTHLY MATH CHALLENGE

“If you don't know where you are going, any road will get you there..” Lewis Carroll

NOVEMBER

Sudoku puzzles are very popular logic puzzles. Can you deduce the correct formation?

	1		2		5			8
	2	4	9	8				5
	5	8	7		1		2	
6		5	3		2		8	1
2		7	1			3		9
		1	5		8	2	6	
		2	6		7	8		
8				1		5		2
		9		2	3		1	

The aim is to fill the grid with the digits 1 to 9. Each column, each row, and each of the nine 3×3 subgrids that compose the large grid, must contain all of the digits from 1 to 9, but **exactly once** only, with **no repetitions**.

Solutions to Miss Delaney by Friday 4th December - Good luck!
