Assessments

Formative Assessment: Work which is marked by the teacher during the unit. This marking will help the teacher and the student know what they need to do to improve. The student will not necessarily receive a grade for this work.

Summative Assessment: Final piece of work at the end of the unit. Student will receive a grade for one or more of the criteria.

Deadlines: Students will learn about the importance of punctuality when handing in assignments.

The MYP assessment scale compared with the national system is shown below:

National System	1-2	3	4	5-6	7	8	9-10

Although the idea of passing and failing does not have a place in the MYP framework due to its assessment philosophy, we still need to fulfill the requirements of the Spanish National Education System and therefore we will qualify as passing the MYP mark of 4
